HOW A WEBSITE WORKS

Our expert team of web designers and developers will work closely with you to understand your unique requirements and create a custom website tailored to your specific needs. Using cutting-edge technologies and design principles, we will create a visually appealing and functional website that reflects your brand identity and engages your target audience. Our process includes designing a custom layout, developing the website with optimized code for performance and security, testing for functionality and responsiveness, and deploying the website to a hosting server for online access.

SOME DETAILS THAT YOU WANT TO KNOW

Domain Name

The unique web address that identifies a website, such as www.example.com, which visitors use to access the site. Example: www.google.com.

Business Email

Setting up a professional email address using the website's domain name for effective communication and branding. Example: info@acmewebdesign.com.

SEO

SEO stands for Search Engine Optimization, which involves optimizing a website's content and structure to improve its visibility and ranking on search engine results pages (SERPs).

Website Hosting

Hosting: Storing website files and making them accessible on the internet. Example: Bluehost, SiteGround, HostGator.

Content Management

CMS stands for Content Management System, which is a software platform that allows users to create, manage, and update digital content on a website. Examples: WordPress.

Website Analytics

Website analytics is the process of analyzing data related to website traffic, user behavior, and performance to gain insights and make data-driven decisions for website improvement.

AGREEMENT

1. We are professional web designers and do not provide customization services beyond our standard offerings.
2. We may provide a sample site for clarification purposes, and if you accept the sample, you are required to pay 50% of the total amount before we start working on your site.
3. Any additional customization or changes requested after the sample acceptance may incur additional charges.
4. We are not responsible for delays or issues caused by third-party services such as hosting, domain registration, or other external factors.
5. We reserve the right to use your website as a portfolio showcase or for marketing purposes unless otherwise agreed upon in writing.
6. You are responsible for providing all necessary content, images, and other materials for your website in a timely manner.
7. Any changes or revisions to the website after the final delivery may be subject to additional charges.
8. We will make reasonable efforts to ensure the website is error-free and functions properly, but we do not guarantee 100% perfect performance.
9. Payment terms, including deposits, milestones, and final payments, will be outlined in a separate contract or invoice.
10. The final website will be delivered to you upon receipt of full payment and completion of all agreed-upon work.
11. The website is designed and maintained for 1 year only, after which it may require additional renewal fees.
12. We will handle maintenance and updates for all plugins and themes installed on the website during the agreed-upon timeframe.
13. No refunds are available once the project has been initiated or completed.
14. If there are delays in providing necessary information or materials from your end, it may result in project delivery delays.
15. If you have paid an advance fee or received a sample from us, it will be considered as, you are agreed to our terms and conditions.
